

**mainstay**®  
**ASSET MANAGEMENT TOOLS**

**PUT YOUR  
MAINTENANCE  
PLAN INTO  
ACTION**

## mainstay® is the most cost effective and comprehensive way to put your maintenance plan into action.

mainstay® is a suite of asset management tools that allow you to control tasks, people and equipment at a shift-by-shift, task-by-task level. mainstay® draws on MPE's extensive experience in the development and implementation of work management solutions.

As a standalone solution, or integrated to complement existing systems such as SAP and Ellipse, mainstay® reduces complexity, confusion and duplication. With the ability to be delivered on three platforms, it enhances workflow efficiency and safety.

mainstay® can be customised to the specific needs of your operation and be configured to import data from a variety of sources including Excel or Project. mainstay® will enhance and improve the functionality of your existing systems, whilst eliminating the need for multiple spreadsheets or other paper based communication.

### mainstay® makes managing labour and tasks easier, faster and more efficient.

- **Simplify** maintenance processes, eliminate duplication and ensure consistency
- **Increase** efficiency, productivity, maintenance quality, visibility and control
- **Reduce** downtime, risk, wastage, complexity and variance
- **Improve** communication, safety, reliability and profitability

### mainstay® delivers information WHEN you need, WHERE you need it.

mainstay® is a powerful, simple, user-friendly application that has a number of deployment options depending on the needs, structure and resources of your operation.

mainstay® can be deployed a number of ways :

- 1 Onsite Server Deployment (hosted by client)

- 2 Mobile Deployment (hosted by client)

- 3 Software as a Service (web based, hosted by Mainstay, Mobile friendly)

**“ ...mainstay® assists us with communication between shifts and almost guarantees that no job gets overlooked. We review daily and make maintenance decisions as a team, identifying tasks not able to be completed or that need to be rescheduled. mainstay® has improved our efficiency - there is no longer multiple spreadsheets and project files. ”**

## mainstay® is a collection of asset management tools.

Depending on the specific needs of your operation, and the preferred deployment methods, a range of modules and functions are available.

### LABOUR MANAGER

- Employees
